Introduction

Remindrr is a currently in development app that aims to be simple and remind you of what's important.

Get started

1. Install dependencies

```
npm install
```

2. Start the app

```
npx expo start
```

In the output, you'll find options to open the app in a

- development build
- Android emulator
- iOS simulator
- Expo Go, a limited sandbox for trying out app development with Expo

You can start developing by editing the files inside the **app** directory. This project uses file-based routing.
